# **Why Internship – For College Students in 2nd Year, 3rd Year, or Final Year ?**

## **1) Practical Experience :**

**Application of Knowledge:** Internships allow students to apply theoretical knowledge from their coursework to real-world situations, enhancing their understanding and retention of concepts.

**Hands-On Learning:** Direct involvement in projects and tasks helps students gain practical skills that are essential in their chosen field.

## **2) Increased Job Opportunities :**

**Employer Preference:** Many companies prefer hiring candidates who have internship experience because it indicates they are work-ready and familiar with professional environments.

**Potential Job Offers:** Internships often serve as a pathway to full-time employment, with many companies offering job offers to successful interns upon graduation.

## **3) Academic Credit and Recognition :**

**College Credit:** Some academic programs offer credit for completing internships, integrating practical experience into the curriculum.

**Recognition:** Completing a prestigious internship can earn students recognition from their peers and professors, enhancing their academic profile.

UG students have to do internships, will be awarded credits: New draft UGC guidelines

Synopsis The University Grants Commission (UGC) has released draft guidelines stating that undergraduate students must complete internships to earn credits. The guidelines align with the National Education Policy (NEP) 2020, which emphasizes the importance of research and internships in the undergraduate curriculum.

Student pursuing undergraduate programmes will have to mandatorily do internships and they will be awarded credits for it, according to new draft guidelines of the University Grants Commission (UGC). The draft of the "Guidelines for internship and research internship for undergraduate students" was released on Tuesday in line with the National Education Policy (NEP) 2020 that emphasises the inclusion of research and internships in the undergraduate (UG) curriculum to provide opportunities to students for active engagement in on-site experiential learning.

**Engineering students will have to do six-month internship in the final year**

They can apply to companies abroad as well; VTU hopes the long duration will help students become more industry ready

Published - August 15, 2021 02:17 am IST - Bengaluru

TANU KULKARNI

Engineering students will have more scope to broaden their horizons and acquire more work experience before taking up jobs. First-year students, who enrolled in this academic year, will have to complete a six-month internship in their final year instead of the earlier mandatory four-week internship.

The Visvesvaraya Technological University (VTU) has decided to enhance the internship duration to make the students more industry ready. What's more, they will also be allowed to travel to other countries for their research or industry internship.

PL playoff scenarios: 5 teams are still in...

**MUMBAI:** Even as a large number of students from traditional and professional courses will be out in the market seeking internship roles soon, the state government has come out with guidelines to facilitate the process. Along with industries, NGOs, financial institutions and banks, students can also do their internships under professionals, such as a chartered accountant, a lawyer or an artist.

As per the institute internship policy, every college will have to set up an internship cell, forge ties with industries to create a variety of internship opportunities for students, conduct personality development programmes, among other things.
